

**COLORADO**  
Governor Jared Polis

June 28, 2022

Dear Jason Meadors,

On behalf of the State of Colorado, I would like to congratulate you on being inducted as the President for the National Court Reporters Association (NCRA). Since shortly after 1899, the NCRA has long been helping Coloradans advancing the court reporter and captioner professions. These professionals provide a necessary service to the public, where their importance can't be understated. Through your organization you host seminars, conventions, workshops, and certification opportunities for those within the court reporting field and those looking to be.

Your induction as the new President of NCRA is precluded by a rich and accomplished career. You began your career in court reporting while in the U.S. Marine Corps from 1975-1978. After your service in the U.S. military, you continued your career as a freelance reporter both nationally and internationally. Then in 1989, you founded Meadors Court Reporting in which you have served as President ever since. It is no surprise that you have been selected for this position by your colleagues and peers.

Once again congratulations on becoming the President of the National Court Reporters Association. We know you will continue serving Coloradans, just as you have through your career up to this point, within your new role. I wish you luck in your new position and your continued role in serving the court reporter profession!

Sincerely,

Jared Polis  
Governor  
State of Colorado
